

**SOLVE HARD PROBLEMS.
SHIP GREAT PRODUCT.
SEE YOUR IMPACT.**

PUSH.

Palantir engineers work on building powerful software platforms that directly address the greatest real-world issues facing us today.

Join us for a demo of our work in disaster relief, as we use the Palantir platform to identify disaster zones requiring assistance, assess damaged structures, and manage an efficient and coordinate response.

Through this demo and talk, we will highlight our problem-solving culture, our incredible engineering team, and the unique mission that drives us.

PALANTIR TECH TALK

Room EC105
Faculty of Automatic Control and Computers
UPB

12th March
14:00

Pizza and refreshments will be provided
Enter raffle to win a prize
